

## **NH launches new wedding planning website**

January 29, 2012|Associated Press

New Hampshire tourism officials want state businesses to feel the love with a wedding planning website to lure couples planning their big day.

The website features hundreds of venues and allows planners to search by indoor and outdoor facilities and reception space.

The website [www.visitnh/weddings](http://www.visitnh/weddings) also helps wedding planners find photographers, florists, bakers, printers, caterers and other services.

Tourism officials say the website is a way to showcase the distinctive wedding experiences New Hampshire has to offer, from mountaintops to lakesides to its inns and grand old hotels.
